Clinical Neuroscience Bern

Friday, 23rd of October 2020, 9.00 – 15.00
Inselspital, Auditorium Ettore Rossi
Freiburgstrasse 4, 3010 Bern

15th Annual Meeting: Brain Repair
Dear Scientists,

We are very pleased to invite you to the 15th annual meeting of the university network Clinical Neuroscience Bern (CNB). This year’s meeting with the overall topic “Brain Repair” will take place on the 23th of October 2020 at Inselspital, Bern.

CNB was founded by research groups of the Faculty of Human Sciences and the Faculty of Medicine in 2004 with the goal to foster neuroscientific research in Bern. In 2016 the Vetsuisse Faculty joined the network. Currently, 68 research groups of the three faculties are represented in the network. The research topics of the individual groups include basic research aiming to understand the function of individual neurons, analysis of functional systems, but also clinical studies and the development of new technologies.

With the CNB annual meeting we aim to improve information exchanges and promote cooperation with internal and external partners. This year’s program includes keynote lectures of Prof. Sebastian Jessberger (Brain Research Institute, University of Zurich, CH) and Prof. Roland Wiest (University of Bern, CH).

In addition, the congress provides young researchers with the opportunity to present their ideas and research achievements by talks (selected from submitted abstracts), during the online poster sessions. We kindly invite members and non-members to register and to submit abstracts. Scientists from other faculties and universities are also very welcome to attend.

This year’s event is planned without lunch and with online poster sessions in the afternoon. The number of participants at the Auditorium Ettore Rossi is limited to 100. Attendees are invited to register on https://www.neuroscience.unibe.ch and to wear a mask. At the same webpage there will be a link for a video lifestream if you prefer to participate from distance.

We hope that the program piques your interest and are very much looking forward to welcoming you at the CNB annual meeting 2020.

Prof. Dr. med. C. Bassetti
CNB Strategic Board

Prof. Dr. T. Nef
CNB Executive Committee

Prof. Dr. med. U. Fischer

Program 15th Annual Meeting
Topic: «Brain repair»
Clinical Neuroscience Bern

Friday, 23 October 2020, 9h00 – 15h00
Inselspital, Auditorium Ettore Rossi, Freiburgstrasse 4, 3010 Bern

09.00 – 09.05  Welcome address
Claudio Bassetti, CNB Strategic Board

09.05 – 09.50  Key-note 1
«Molecular and functional diversity of adult neural stem cells»
Sebastian Jessberger
Professor for Neurosciences and Director of the
Brain Research Institute – University of Zurich, Switzerland

09.50 – 10.20  Short Talks: 3 selected Abstracts à 10 Minutes
10.20 – 11.05  **Key-note 2**  
«An imaging perspective of brain injury and repair»

Roland Wiest  
Professor and Scientific Director, Support Center for Advanced Neuroimaging (SCAN)  
Deputy Physician in-Chief, Institute of Diagnostic and Interventional Neuroradiology, Inselspital – University of Bern, Switzerland

11.05 – 12.00  **CNB Group leader’s meeting**

Chairs: Tobias Nef, Sebastian Walther

14.00 – 15.00  **Online Poster session**

**End of Meeting**
General information

CNB Executive Committee
Tobias Nef, Sebastian Walther, Antoine Adamantidis, Urs Fischer, Thomas König, Beat Meier, Daniela Schweizer, Roland Wiest, Benoît Zuber

CNB Strategic Board
Claudio Bassetti, Hans-Uwe Simon, Tina Hascher, David Spreng, Britta Engelhardt, Jan Gralla, Stephen Leib, Fred Mast, Thomas Nevian, Andreas Raabe, Werner Strik, Daniel Surbek, Stefan Weber

Poster Award Committee
Maxime Baud, Thomas König, Sebastian Walther, Daniela Schweizer

Contact
Julia Truttmann
E-mail: julia.truttmann@artorg.unibe.ch

Registration
Please register on https://www.neuroscience.unibe.ch by October 22, 2020. The participation is free of costs.

Abstracts, posters and talks
Language for abstracts, short talks and posters is English. The executive committee will decide about acceptance.

When submitting an abstract please choose one of the three research categories which fits best your research topic: Clinical research, basic research animal or basic research human.

All free contributions will automatically be considered for poster presentation. Among all submissions, three outstanding abstracts will further be selected as short talks. Duration of talks: 10 min

All participants presenting a poster are eligible to win a price.

Poster prizes
– Clinical research CHF 500.–
– Basic research animal CHF 500.–
– Basic research human CHF 500.–
Venue
Inselspital, Auditorium Ettore Rossi, Freiburgstrasse 4, 3010 Bern
